

Scientific Program

Monday April 3rd 2017

- 09:00-09:05 Welcome
Kitty Verhoeckx (ImpARAS chair)
- 09:05-09:15 Introduction of participants
- 09:15-09:45 Introduction on digestion and allergenicity assessment.
Kitty Verhoeckx (TNO, The Netherlands)
- 09:45-10:15 The role of gastric digestion in food allergy.
Eva Untersmayr, (Medical University Vienna, Austria)
- 10:15-10:45 Digestion protocols (Infogest, EFSA) and the role of processing.
Alan Mackie (University of Leeds, UK)
- 10:45-11:00 Coffee break**
- 11:00-12:30 Discussion 1: Is digestion usable for allergenicity assessment, what is the prove for that or how to prove it and what is currently missing?
Moderator: Eva Untersmayr, (Medical University Vienna, Austria)
- Discussion 2: Should a digestion model reflect the human situation or is a predictive value sufficient.
Moderator: Didier Dupont (INRA, France)
- 12:30-13:30 Lunch break**
- 13:30- 15:30 Discussion 3: Which elements should be used in an ideal digestion protocol
Moderator: Alan Mackie (University of Leeds, UK)
- Discussion 4: What should the read out be of an digestion protocol?
Moderator: Kitty Verhoeckx (TNO, The Netherlands)
- 15:30-16:00 Closing
The way forward**
